Realising the potential of our customers' workspace

Across our customer community, we provide products and services to satisfy a strong desire to improve their workforce engagement and productivity. To further entrench our unique customer offer, we have acquired the Australian operations of Six Ideas, a strategic workplace and change management consulting service.

Six Ideas by Dexus utilises expertise to tackle complex problems arising from continual change around the way we work. Senior practitioners with international experience work alongside our customers to create environments that support organisational and cultural innovation, while maximising the potential of change events.

This service complements our in-house Project Delivery Group which provides project management and capital works delivery for office fit-outs.

We are now able to provide an end-to-end service that will help our customers to leverage their premises for business success.
