sector performance

commercial portfolio

In the six months to December 2005, net property income from the commercial portfolio was \$119.3 million.

New leases, lease renewals and heads of agreement, accounting for approximately 45,000 square metres or six percent of the commercial portfolio's area, were secured.

As a result, including current heads of agreement, the commercial portfolio's occupancy increased to 97.5 percent, from 92.3 percent in December 2004. The leasing activity has helped extend the portfolio's average lease term to expiry by income to 6.6 years from 5.9 years at December 2004.

14 Moore Street, Canberra ACT

During the half-year the Lumley Centre, Auckland NZ was completed and its acquisition concluded. In addition, the refurbishment at 321 Kent Street, Sydney was completed and the refurbishment at 130 George Street, Parramatta is underway.

Since 31 December 2005, DRT has finalised a 10 year lease to the Commonwealth of Australia over 11,867 square metres at 130 George Street, Parramatta, increasing this property's occupancy to 98 percent.

industrial portfolio – australia

In the six months to December 2005, net property income from the industrial portfolio was \$54.4 million.

New leases, lease renewals and heads of agreement, accounting for almost 94,000 square metres or eight percent of the Australian industrial portfolio's area, were secured.

As a result, including current heads of agreement, the Australian industrial portfolio's occupancy was 98.5 percent compared to 98.1 percent in December 2004. The leasing activity has helped extend the portfolio's average lease term to expiry by income to 4.9 years from 4.1 years at December 2004.

DRT completed three Australian industrial developments with a total value of over \$30 million during the period. DRT has a further 67,000 square metres of development underway, with five pre-commitments being secured during the six months ending 31 December 2005. The forecast average yield for these projects is approximately 8.1 percent.

retail portfolio

In the six months to December 2005, net property income from the retail portfolio was \$28.8 million.

New leases, lease renewals and heads of agreement, accounting for more than 31,000 square metres or 11 percent of the retail portfolio's area, were secured.

As a result, including current heads of agreement, the retail portfolio's occupancy was 99.4 percent which is in line with December 2004.

The reconfiguration of Mt Druitt continues with stages 1 and 2 complete and completion of the final stage due in March 2006. The retail portfolio's development pipeline includes significant expansions at Plenty Valley in Victoria and North Lakes in Queensland, both expected to commence late 2006.

US industrial portfolio

In the six months to December 2005, net property income from the US industrial portfolio was \$58.9 million.

New leases, lease renewals and heads of agreement, accounting for more than two million square feet or 10 percent of the US portfolio's area, were secured.

As a result, including current heads of agreement, the US industrial portfolio's occupancy was 91.2 percent compared to 87.4 percent in December 2004. The portfolio's average lease term to expiry by income fell slightly to 3.3 years from 3.4 years at December 2004.

During the half-year DRT acquired four properties, totalling approximately 450,000 square feet, in Minneapolis, Minnesota for \$US 28.0 million. These assets were 83 percent leased with a current yield of 7.3 percent which is expected to grow to 8.5 percent. In addition, DRT commenced a \$US 17.0 million development known as the Turnpike Distribution Centre located in Medley, Florida, due for completion in the fourth quarter of 2006.

apportionment percentages of DRT stapled securities since stapling

For capital gains tax purposes investors need to apportion the cost of each stapled security and the proceeds on sale of each stapled security over the four Trusts that make up the stapled security. This apportionment should be done on a reasonable basis. One basis of apportionment is to use the relative net tangible assets (NTA) of each of the Trusts.

Using NTA as a basis, the table below outlines the apportionment percentages that will apply to any on or off market buying or selling of DRT stapled securities, or the issue of new DRT stapled securities between the dates specified.

Please note that the correct allocation percentage to be used depends on the relevant date of the specific transaction. Consequently, the allocation percentage relevant for the acquisition of a parcel of DRT stapled securities, (either on or off market, or through the issue of securities), may differ from their disposal percentage.

DRFM will periodically release revisions to this table and it will be published on its website. A copy of the schedule can be downloaded by visiting our website at www.dbrreef.com or by contacting 1800 819 675.
