DEXUS named in World's Top 100 Most Sustainable List

For the second consecutive year, DEXUS has been named as one of the world's 100 most sustainable corporations in the sixth annual "Global 100" list, announced at the Davos World Economic Forum in Switzerland.

DEXUS Chief Executive Officer, Victor Hoog Antink said: "DEXUS has a long-term commitment to Corporate Responsibility & Sustainability and we are proud to have been recognised, for the second year running, for our efforts in this important area."

The sixth annual "Global 100" list is determined through evaluating how effectively companies manage environmental, social and governance risks and opportunities, relative to their industry peers. The aim of the Global 100 list is to highlight the global corporations which have been most proactive in managing environmental, social and governance issues.

The 2010 list is drawn from a total of 3,000 companies from 24 countries encompassing all sectors of the economy. The listing is produced by Corporate Knights Inc with one of the world's largest sustainability research alliances put together by Legg Mason's Global Currents Investment Management.
