### Dexus recognised for responsible investment

Dexus has achieved an A+ rating from the Principles for Responsible Investment (PRI) in its 2019 assessment, demonstrating the integration of environmental, social and governance (ESG) factors across its business.

Dexus CEO, Darren Steinberg said: "Our commitment to PRI reflects the increasing relevance of environmental, social and corporate governance issues to our investor base.

"The A+ rating verifies our effective integration of ESG across our platform to manage risk and generate long-term value for Dexus and its funds management partners."

As a signatory to the PRI since 2010, Dexus has committed to upholding the PRI's six principles of responsible investment and reports annually on implementation of those principles across two key modules.

In the 2019 PRI Assessment, Dexus achieved an A+ ranking for both the Strategy and Governance and the Direct Property modules.

The PRI is supported by the United Nations and is the world's leading benchmark for responsible investment. Signatories are required to report to the PRI to demonstrate how they uphold the principles of responsible investment, providing a comparison across asset classes, and with peers at the local and global level.
