Investment objectives

The primary investment return objectives of the Fund are to:

- › Deliver a gross annual income yield (before management fees, expenses and taxes) in excess of the performance benchmark², combined with some capital growth, derived predominantly from investing in global REITs
- › Maintain the real value of investments over a 5–7 year time horizon (where real value is measured against the weighted-average CPI for those countries within the GPR 250 REIT Net Index (AU) (or equivalent))
- › Provide lower than market volatility.³

Benefits

- › Focus on generating sustainable, regular and relatively high income returns relative to the performance benchmark through investing in global listed property securities.
- › Access to an underlying diversified portfolio of thousands of quality commercial real estate assets located in North America, Asia Pacific and European markets.
- › Has delivered monthly distributions.⁴
- › Actively managed (non-index aware) portfolio, applying a highly disciplined and proven strategy designed to deliver on the Fund's income and risk objectives.
- › Liquid – daily applications and withdrawal (under normal market conditions but withdrawals can take longer in certain cases as set out in the PDS).

This Fund is suited to:

- › Investors seeking consistent and relatively high levels of income
- › Investors wanting access to a diversified portfolio of quality global REITs
- › Medium to long term investors

Annualised total return since inception¹

1. Returns after all fees and expenses. Assumes distributions are reinvested. Investors' tax rates are not taken into account when calculating returns. Returns and values may rise and fall from one period to another. Past performance is not an indicator of future performance. Fund's inception date used to determine the return: 1 April 2020.
 2. GPR 250 REIT Net Index (AU) or equivalent, in Australian dollars.
 3. The Dexus Global REIT Fund aims to provide lower than market volatility compared with the GPR 250 REIT Net Index (AU) (or equivalent Global REITs Index) over a 5–7 year time horizon.
 4. Past performance is not an indicator of future performance.
 5. CPI Return is calculated using the weighted average monthly CPI (not seasonally adjusted) for countries within the GPR 250 REIT Net Index.
 6. Current running yield as at 31 March 2026 is calculated daily by dividing the annualised distribution rate by the latest entry unit price. Distributions may include a capital gains component. Distributions are not guaranteed and past performance is not an indicator of future performance.
